

Santa Cristina GmbH

Vienna, 15th April 2019.

Dear Mr. Korkmaz

Per your request, I am pleased to confirm that we provide Coffee Kult in Innsbruck, Austria, with full access to traceability information and personal contact to producers, who have been supplying you with our coffee since our first import in 2015. This - to us - constitutes a solid partnership where you have directly supported the specialty coffee community in El Salvador with payment of fair prices, and Direct Trade in the truest form.

Since the start of our business relationship with you, Santa Cristina farms (El Salvador) and Santa Cristina imports (Austria) continue to be run and owned by us.

We closely manage and monitor harvesting, processing, exporting, logistics, importing, storage and sales, keeping strictest management of the goods, from our farms to you.

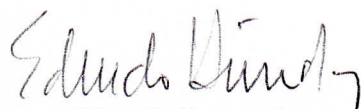

We intimately collaborate with other specialty coffee producers who have also supplied you with their product for many years, such as Cesar Magaña and Carlos Pola from the Juayua microregion, known for some of the highest quality standards in coffee production in the world.

Some of the coffees we supply to you:

Santa Cristina farm | Hernandez family, producers | San Salvador volcano, El Salvador.
Lechuza farm | Cesar Magaña, producer | Juayua microregion, Sonsonate, El Salvador.
San Antonio farm | Carlos Pola, producer | Juayua microregion, Sonsonate, El Salvador.

Please let me know if we can be of further support.

Sincerely yours,

Eduardo Hernandez

Owner and Managing Director
